## Our Mission

**To build a digital signature platform of choice for organizations to issue and exchange authenticated documents in a secure way globally.**

## What We Offer

### Contract Life Cycle Management

- Template driven contracts creation
- Extensive collaboration on the draft
- E-stamping on final copy
- Multi-party signatures using DSC/Aadhaar/e-Sign
- Storage of signing documents in DMS
- Comprehensive Audit reports
- Direct API integration with ERP/CRM/HRMS systems

### Bulk Contracts Management

- Map data spreadsheet with contract template
- Generate multiple contracts in one-go
- Initiate signing with a single click
- Track the progress online
- Ideal for signing dealer/vendor agreements

### E-stamps Management

- Integrated e-stamping capability
- E-stamps inventory maintenance
- Recovery of unused e-stamps
- Most states supported

## Benefits

- Faster contract turnaround with reduced signing cycles.
- Strong legal compliance with secure, tamper-evident signatures.
- Centralized management for easy tracking and retrieval.
- Lower operational costs by removing printing and courier processes.
- Higher accuracy with automated checks and reduced errors.
- Secure, encrypted workflows that protect sensitive information.
- Easy collaboration for internal teams and external partners.
